“CLIL AS A BRIDGE TO REAL LIFE ENGLISH”
DURJAVNA FINANSOVO-STOPANSKA GIMNAZIA “INTELLECT”
Town: Pleven, municipality Pleven, region: Pleven

Marina Hristoforova Tsvetkova

Diary

The first day we after having breakfast with Rumejsa we went to school, where it was the official welcome for our guests. There I and my classmates had prepared and we had made a poster. Our other classmates were dressed in folk costumes and welcomed our guests with PITA and honey in the old Bulgarian tradition. Then we went to the library of the school and there each country presented its culture, education, traditions, folklore etc. After lunch all participants in the project presented a dance or a song. Then it was a lot of fun because we were taught the dances from different countries and cultures. Then we played a game where we were divided into teams. A picture of the different symbols of the country were jumbled and pinned to a big board. Teachers gave us other smaller boards and had one of those pictures to choose only those that are symbolic for the country that we were in charge with. After this game we went for a walk in the center of the city of Pleven. The day was very entertaining and full of emotions.

The second day we went on a trip to Veliko Tarnovo and Lovech. We visited the indoor bridge in Lovech and the Church of St. 40 martyrs in Veliko Tarnovo. In both places we had a tour guide. He told us the story of the two cities. At noon we were in Veliko Turnovo. The evening as we got home in Pleven my mother and my father took us out and we went to the pizzeria.

The third day was March 1. On this day in Bulgaria we exchange martenitsas for health and after we went to the school we taught our guests how to make martenitsas. Then each State submitted a presentation with spring holidays. Then we had karaoke which was a lot of fun. All of us were assembled on a stage and sang songs in English. We ate lunch with traditional food at school. Then we went to the "Panorama-Pleven epopée". There also we had a tour guide and

were told about the battles around the town of Pleven. This night we talked about lots of things that impressed us and went to bed late.

The fourth day we were in Sofia-the capital of Bulgaria. There we visited St. Alexander Nevsky Cathedral. We walked along the center of the city and saw the Council of Ministers, the Parliament, the National Bank and some of the museums in Sofia. For lunch we went to the "Ring Sofia Mall". We ate there and we had two hours to walk to the shops in the Mall. Then we got home in Pleven.

The fifth day till noon we were free to enjoy the festivities about the Bulgarian National Holiday. For this I, my mom, my brother and Rumejsa went in the historical Museum of the city of Pleven. Then we came back to have lunch and immediately went out for school. There photo competition was held for all the participants in the project. It was then the official distribution of the certificates of participation in the project. In the evening we were at a holiday dinner and partied until late in the evening.
